Skills and Proficiencies

- Basic knowledge of Java, Python, and web application
- Good communication and interpersonal skills
- Proficient in using Intellij and Visual Studio Code
- Ability to be patient and problem solve a difficult task

Key Skills Assessment

KNOWLEDGE: I'm a Launchcode graduate and want to pursue a career in Java.   I continue to learn Java by solving code on the Code Signal website to remain knowledgeable. I have basic knowledge with programming which involves understanding what type of errors can take place in a code and understanding the use of some functions of Java.

SKILLS: As a student of Launchcode, I developed skills that include the following: empathy, team player, ability to adapt, organization, problem solving, critical thinking, etc.
